Re. Eastern Diversified Metals  
Site

Dear Sir:

This office represents The Boston Junk Company and your letter of March 5, 1987, has been referred to me, together with copies of my client's letters to you of September 12, 1986, and September 2, 1986. I have reviewed the material you forwarded to my client, and I notice that the business records of Eastern Diversified Metals seem to suggest that it received copper wire from my client from time to time. My client has no records of doing business with Eastern Diversified Metals. I would appreciate it if you would forward to me photocopies of any records which Eastern Diversified Metals might have to substantiate the allegation that my client shipped copper wire to it. I note that my client requested this information in its prior correspondence to you, and I hope that you will see fit to reply to my letter. Neither my client nor I can make a judgment as to our position with regard to your letter until we have some basis for determining whether or not Boston Junk Company is responsible under the law.

I look forward to hearing from you.

Very truly yours,

*Stuart F. Liss*
